(1) For warranty details, see the SolarEdge Home Battery Limited Warranty.

(2) Installations with multiple SolarEdge Home Batteries require a pair of branch connectors (DC + and DC -) per battery excluding the last battery. The branch connectors should be purchased separately.

(3) The SolarEdge Home Battery is designed for use with SolarEdge Home Network for wireless communication. The inverter might require a matching SolarEdge Home Network Plug-in (more details [here](#)). Using RS485 could reduce the usable energy to 9500Wh.

(4) The floor stand is purchased separately. One floor stand is required per SolarEdge Home Battery. See the Accessories' P/N table below.

(5) Wall mount installation requires handles that should be purchased separately. See the Accessories' PN table below.

(6) Please note that operating the SolarEdge Home Battery at extreme temperatures for extended durations of time may void the SolarEdge Home Battery's warranty coverage. See the SolarEdge Home Battery Limited Warranty.
